Warranty and Important Information

Limited 5-Year Warranty:

WhisperRoom, Inc. will repair or replace, at its factory, any part that may prove to be defective in materials or workmanship, for five years from date of purchase. This warranty does not cover damage resulting from shipping, an accident, mishandling, vandalism, misuse, abuse, alteration, or lack of reasonable care. Any alterations to the WhisperRoom will void this warranty. This warranty is extended to the original owner only and is not transferable.

NOTE: Manufacturer reserves the right to make design modifications.

For Services:

Contact a Product Representative at WhisperRoom, Inc. at 865-558-5364 or 1-800-200-8168. Factory is located at 116 South Sugar hollow Road, Morristown, TN 37813.

Important Information:

- WhisperRooms are portable/modular sound isolation enclosures designed to significantly reduce the level of sound. WhisperRooms are not soundproof.
- It is the responsibility of the purchaser to ensure the WhisperRoom complies with their specific building codes.
- We at WhisperRoom, Inc. make every attempt to ensure that our customers are 100% confident in their purchase before their order is finalized. However, should an unforeseen situation occur, a return would be considered at the sole discretion of WhisperRoom, Inc.
- Models that are 5’ x 5’ (MDL 6060) and larger are expandable in the second dimension by the addition of a model-specific Expansion Package, contact a Product Representative for more information.

Sound Booth Models

Two Levels of Isolation

Models that are 5’ x 5' (MDL 6060) and larger are expandable in the second dimension by the addition of a model-specific Expansion Package, contact a Product Representative for more information.

Some applications or locations may require a much greater level of noise reduction than what is offered by a Standard (Single-Wall) WhisperRoom. To accommodate this, Standard units have been preconfigured to allow for the installation of a full set of secondary isolation components creating an Enhanced (Double-Wall) unit. The IEP upgrade is installed on the inside and will decrease the interior space by approximately 4.5” in both dimensions (not including the interior foam).

NOTE: May be ordered and installed at anytime.

Standard “S” (Single-Wall)

Enhanced “E” (Double-Wall)

Please visit **whisperroom.com/noise-reduction** for more details on isolation.

MDL 127 LP

Model	Approximate Exterior Size	Approximate Interior Size	Weight (lbs)	USD Price
S	5’3” x 4’4” x 6’11”	12.7 sq. ft.	709	$5,725

Model Types

- **“S” - Standard (Single-Wall) isolation** **“E”- Enhanced (Double-Wall) isolation**
- Standard (Single-Wall) models can be upgraded to Enhanced (Double-Wall) models at any time with the addition of a model-specific IEP (Isolation Enhancement Package). Contact a Product Representative for more information.
- Diagrams shown are Enhanced (Double-Wall) models. Some diagrams are shown with optional Wall Windows and Caster Plate. Note: Caster Plate adds 5’ to exterior height.
- Weights listed are assembled weights. Adding optional features will increase the weight.
- Prices do not include shipping cost. Contact a Product Representative for a shipping quote.
- Expansion Packages are available for models 5’x 5’ and larger. Contact a Product representative for more information.

WhisperRoom Packages

Voice Over Basic Package

This is an excellent choice if you are looking to avoid minor background noise while recording audiobooks, e-learning transcripts, or audio for commercials and advertisements.

Whatever your next project might be, this booth has several added features to help you produce the highest quality of audio for your clients.

The Voice Over Basic package includes our MDL 4848 S which is a single-wall booth with exterior dimensions of 4' 2" x 4' 2" x 6' 11". This booth comes standard with ventilation, a door window, Auralex studio foam (4 sheets), and cable passages for your wiring needs.

Additionally, several of our most popular optional features for voice-over artists come with the package. The Voice Over Basic includes a Ventilation Silencing System, the Exterior Fan Silencer, our multi-colored LED Studio Light, a foldable Office Desk, and Auralex LENRD Bass Traps (2).

MDL 4848 S	$4,750
Ventilation Silencing System	$645
Exterior Fan Silencer	$125
Office Desk	$299
Studio Light	$220
Auralex® LENRD Bass Traps (2)	$120
	= $6,159

+ 5% Package Discount

Work From Home Booth

The Work From Home Booth is a practical space to take calls, manage meetings, or work privately in a quiet space.

For those of us that are forced to work from home, noisy interruptions can cause a frustrating workday. Decrease those distractions and conduct video conference calls without disruptions or spectators watching you through the window.

The Work From Home Booth package includes our MDL 4872 S which is a single-wall booth with exterior dimensions of 4' 2" x 6' 2" x 6' 11". This booth comes with a Ventilation System, a Door Window, Cable Passages for your wiring needs, our foldable Office Desk, Auralex Studiofoam (6 sheets), and a multi-colored Studio Light.

MDL 4872 S	$5,865
Office Desk	$299
Studio Light	$260
	= $6,424

Basic Features

Basic Features

Door Window

A door window is provided with each WhisperRoom. Each glass unit consists of multiple layers of 1/4” laminated safety glass separated by an air buffer(s). Safety glass is used because of its superior noise reduction capabilities and safety features. If broken, it will not shatter.

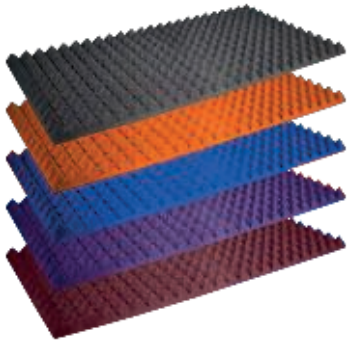
The door window does not reduce the noise reduction capability of a WhisperRoom. It does, however, increase the amount of interior reflective surface area.

Note: Doors are available without a window.

Ventilation System

Effective air circulation is accomplished by acoustically engineered, detachable ventilation systems which circulate air at a rate of 80 CFM (cubic feet per minute). The number of systems required depends on the size of the WhisperRoom unit. Roof-mount ventilation systems are also available for most models.

Note: We also offer our rooms without ventilation.



Acoustical Foam

Each model comes with enough Auralex® acoustical foam to cover about 1/3 of the interior. Each sheet is 2’ x 4’ and 2” thick and attaches to the interior with Velcro®. This allows the user to customize the interior acoustics to suit their needs.

The foam can easily be added to or removed from, the WhisperRoom for applications where a more dead or live environment is desired.

Note: See page 34 for pricing.

Basic Features

Light - 18" LED

Lights shipped with WhisperRooms are intended to provide customers with basic startup lighting. It is understood that most customers will ultimately purchase and install lighting fixtures more suitable to their individual needs and desires. One or two lights are provided depending on the enclosure's size.

WhisperRoom reserves the right to substitute for a comparable product.

Note: Lights are UL approved. Additional lights may be purchased for $20.00 each.

Cable Passages

Access for communications such as microphones, headphones, speakers, and electrical cables is accomplished by way of slotted rubber cable passage plugs. Simply remove the plug, insert the cable(s) into the slots and re-insert the plug into the wall. Two or more cable passage plugs are provided with each WhisperRoom and each will accommodate multiple cables.

The number of cable passages depends on the size of the unit. Also, an additional cable passage is located at the base of each optional window component.

Wireless Switch

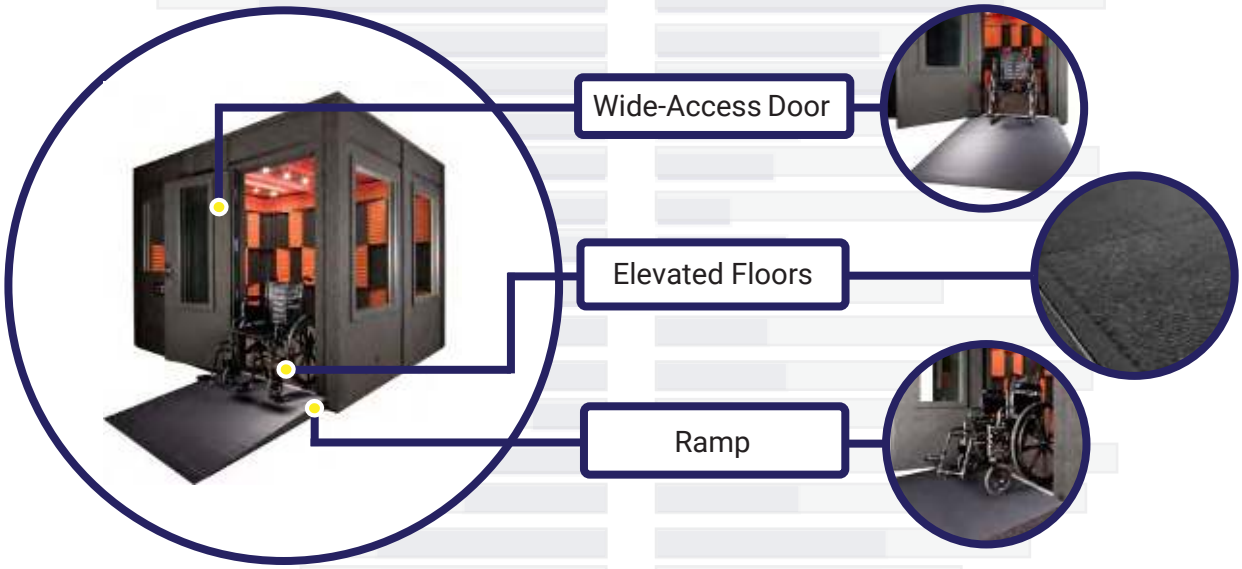
A wireless remote switch is provided with each WhisperRoom to control the ventilation system(s). This allows the user to turn the ventilation system on/off from inside the WhisperRoom. The wireless switch can be connected to the light instead of the ventilation system, but it is intended for the ventilation fan(s).

WhisperRoom, Inc. reserves the right to substitute for a comparable product.

Note: Additional Wireless Switches may be purchased for $30.00 each. Switches do not ship with non-ventilation models.

Optional Features

ADA Package



The ADA Package includes the following components to allow easy accessibility for people with disabilities:

- A 32” wide door opening
- A 1:12 ratio ramp
- A door handle operable with a closed fist
- A raised floor
- A “no threshold” door design

Each of the seven available sizes has at least a five-foot interior space for wheelchair maneuverability. All ADA Package sizes are available in both our Standard (Single-Wall) and Enhanced (Double-Wall) versions.

The 2010 Americans with Disabilities Act standards which apply to state & local governments, public accommodations, and commercial facilities state that "the 2010 Standards apply to fixed or built-in elements of buildings, structures, site improvements, pedestrian routes, or vehicular ways located on site". Because the WhisperRoom is neither built-in, nor a fixed element/structure, there is no technical requirement for the WhisperRoom to comply with the 2010 ADA standards.

Note: Must be specified at initial order.

Standard Pricing		Enhanced Pricing	
ADA 7272 S	$1,870	ADA 7272 E	$2,385
ADA 7296 S	$2,085	ADA 7296 E	$2,580
ADA 9696 S	$2,375	ADA 9696 E	$2,835
ADA 96120 S	$2,670	ADA 96120 E	$3,080

WA - Wide-Access Door

Standard	Enhanced
$ 565	$ 1,050

Wide Access Ramp

$ 445

Any WhisperRoom with a 5’ wall or larger can be configured with a Wide-Access Door upgrade. This upgrade is perfect for applications which require the passage of large items into and out of the WhisperRoom. Wide-Access Doors include a 16” x 48” door window.

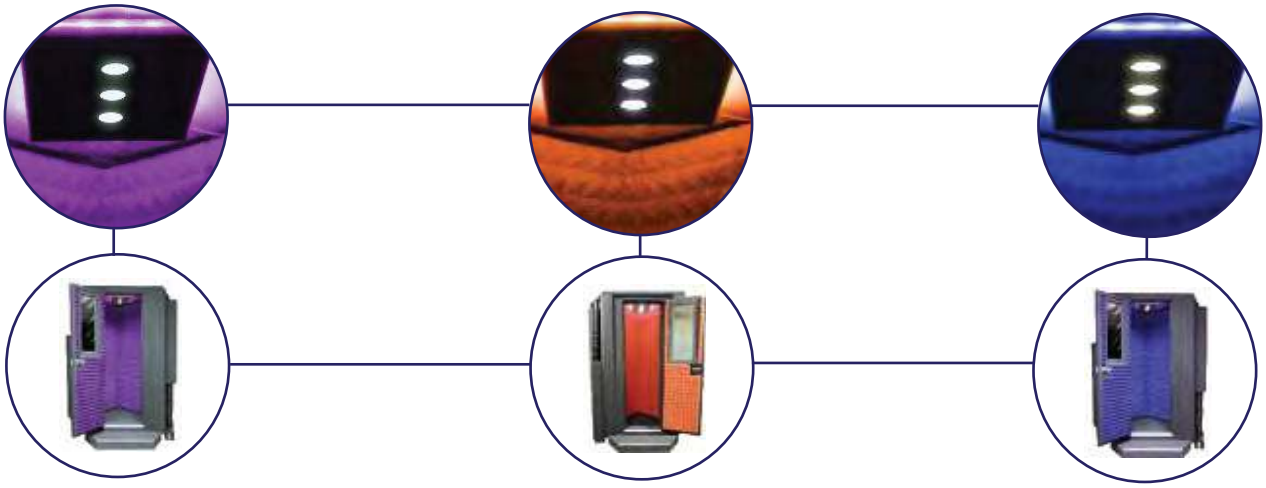
Note: Must be specified at initial order.

Office Desk

This low-profile desk is designed to help you maximize your workspace. Two USB outlets and two 120-volt outlets are conveniently attached to the desk so you can plug right in. The 30" wide red oak desk is attached to a backing panel with adjustable hinges. This gives you the flexibility to fold the desk down and make more space in the booth when you decide not to use it. Can be installed on the inside or outside of your WhisperRoom.

Note: Office Desks are $299 each

SL - Studio Light Package



As with all WhisperRoom features, the optional Studio Light series provides maximum flexibility. Dual light systems, LED puck-lights for general lighting, and multicolored LED lights for mood/ ambiance are all incorporated into this unique design. Both create literally no noise or heat, and can easily be adjusted for desired brightness. In addition, the multicolored lights can be single color or alternating colors, as well as a variety of other functions using a remote control, which is included. The Studio Light in conjunction with the numerous interior acoustical foam colors provide many possibilities. The size and quantity of Studio Lights included in each package is determined by the size of the WhisperRoom.

ATP - Acoustic Tuning Package

Without Foam **With Foam**

The ATP provides a very flexible and cost-effective solution to easily create the interior acoustical environment desired by each WhisperRoom user. The primary purpose of the ATP is to alleviate the problem of parallel walls, which creates an acoustical issue commonly known as "standing waves". The ATP consists of:

- A series of angled deflector panels attached to the interior surface of two perpendicular walls within the WhisperRoom.
- Acoustical foam sheets (1' x 2') can be attached to several deflector panels to control mid-to-high frequencies.
- LENRD® Bass Traps (3) located in the common corner will help control low frequencies.

Other acoustical materials, such as cloth wrapped fiberglass, can be attached to the surface of deflector panels. The direction and pattern of deflector panels can easily and quickly be adjusted to accommodate user needs. Open voids created behind each angled deflector panel provide sound wave entrapment.

Pricing

4242	$490	**4260**	$550	**4284**	$665
4848	$505	**4872**	$615	**4896**	$735
6060	$615	**6084**	$710	**7272**	$735
7296	$815	**8484**	$845	**84102**	$955
84126	$1,030	**9696**	$955	**96120**	$1,085
96144	$1,195	**96168**	$1,315	**96192**	$1,425
10284	$955	**102102**	$1,060	**102126**	$1,135
102144	$1,245	**102168**	$1,360	**102186**	$1,470

WDO - Wall Windows

WDO 2630 S $460	**WDO 2636 S** $505	**WDO 2642 S** $580	**WDO 2648 S** $675
WDO 2630 E $920	**WDO 2636 E** $1,020	**WDO 2642 E** $1,155	**WDO 2648 E** $1,350

WDO 3230 S $565	**WDO 3236 S** $645	**WDO 3242 S** $735	**WDO 3248 S** $890
WDO 3230 E $1,145	**WDO 3236 E** $1,280	**WDO 3242 E** $1,475	**WDO 3248 S** $1,775

30" Windows	**36" Windows**	**42" Windows**	**48" Windows**
Provides plenty of visibility applications which require that the user stand inside the WhisperRoom.	For applications which require visibility while the user sits, a 36" window is recommended.	If an interior desk or table is to be used beneath the window, a 42" window will allow the necessary visibility.	The 48" window provides the most visibility.

Other than size, the design is the same as that of a door window. Each glass unit consists of multiple layers of 1/4" laminated safety glass separated by air buffer(s). Safety glass is used because of its superior noise reduction capabilities, and its safety feature. If broken, it will not shatter. A window DOES NOT reduce the noise reduction capabilities of a WhisperRoom. However, it does increase the amount of interior reflective surface area. An additional cable passage plug is located at the base off each window component.

***26-Inch wide windows are only available for 42, 60, 84, 102 Series Models**

***32-Inch wide windows are only available for 48, 72, and 96 Series Models**

NOTE: Must be specific at initial order.

MJP - Multi Jack Panel

Multi Jack Panel	**Additional XLR to 1/4" Adapter**
$650	$30

The Multi Jack Panel is a standalone optional feature that can be installed on your WhisperRoom after it is assembled. It is a pre-wired, jack-panel insert consisting of 2 USB jacks, 4 XLR jacks, and 6 - 1/4" stereo phono jacks. Simply thread the cables through a cable passage to reach the interior box. If your need requires additional 1/4" stereo phono jack, we can add an XLR to 1/4" stereo phono jack adapters for a small charge. This feature is great for audiometric applications.

NOTE: May be ordered and installed at any time.

CP - Caster Plate

The Caster Plate is an additional floor component with wheels to aid in the mobility of a WhisperRoom. The Caster Plate also provides a substantial amount of downward noise control. It adds additional mass in the downward direction and provides a 4” air buffer below the WhisperRoom. This feature is highly recommended for applications where low-end, structurally transmitted noise is a problem. See optional "Step" below.

NOTE: this option adds 5 inches to the overall height of a unit and may be purchased anytime. However, for ease of assembly, it is recommended to purchase during initial order.

Step

An optional exterior Step is now available for situations which require an optional Caster Plate. The step providers a comfortable transition when stepping up, into, and down out of the WhisperRoom. It is highly recommended that the step be used in conjunction with the optional Caster Plate.

NOTE: Steps are $95.00 each.

HX - 10” Height Extension

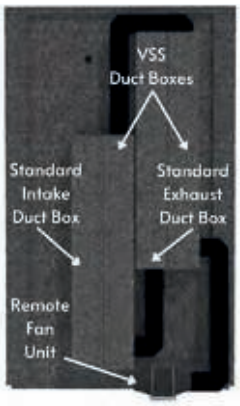
WhisperRooms are designed to permit installation in residences and facilities with standard ceiling heights (approximately 8’). However, when additional height is required for equipment or application-specific needs, a 10” height extension upgrade is available

NOTE: Prior to placing your order you should ensure that the host room’s ceiling height will permit the installation of the Height Extension. It must be specified at initial order.

IEP Floor - Isolation Enhancement Package Floor

The IEP floor is a 5/16" DURACOUSTIC® mat made of recycled rubber that is included in the Enhanced models or IEP upgrades. It is installed on the floor underneath the WhisperRoom floor and provides additional isolation. The IEP floor can be purchased for standard rooms also and is recommended if there is a possibility of upgrading to an Enhanced (Double-Wall) model at any point in time.

VSS - Ventilation Silencing System



Standard ventilation systems are quiet, but the air-flow noise is still slightly audible inside the WhisperRoom. This noise can be eliminated by the installation of a VSS. The number of VSS units needed depends on the size of the WhisperRoom and the prices listed are for the specific model noted. One VSS is required for each standard ventilation system. Each VSS consists of two additional baffled exhaust ducts with hoses and adapters, linked in-line between the standard exhaust duct and the remote fan unit (RFU).

NOTE: May be ordered and installed at anytime. Roof-mount ventilation systems and VSS systems available for most models.

EFS - Exterior Fan Silencer

WhisperRoom remote fan units have a 38dB noise rating. This slight noise can be eliminated by positioning each fan into an Exterior Fan Silencer (EFS). The number of EFS units needed depends on the size of the WhisperRoom and the number of ventilation systems required.

NOTE: may be ordered and installed at anytime. $125.00 each.

HEPA Filter

Our HEPA filter is easily installed on any WhisperRoom. Our unique design allows the ventilation to maintain airflow while blocking out unwanted particles into your booth.

HEPA filters are incredibly effective at capturing viruses, bacteria, pollen, mold, and more.

Includes an additional replacement filter. HEPA Filter Dimensions: 10.2” x 6.5” x 1.6”.

NOTE: $100.00 each.

Studio Foam

Foam Colors

Foam Type

Foam 2 - $ 115	**Foam 3** - $ 170	**Foam 4** - $ 225

Purchase additional boxes of foam. Each sheet is 2’ x 4’ and 2” thick and each box contains the indicated number of sheets. Foam sheets for the ATP (pg. 23) are pre-cut 1’ x 2’ with Velcro® attached.

LENRD® Bass Traps

Control low frequencies inside your WhisperRoom™ with LENRD® Bass Traps. These top-of-the-line bass traps are designed to dampen low-frequency sound energy and help you attain a flatter low frequency inside your booth.

Note: Sold in packs of 2 for $120.00.

Audimute: Fabric Acoustic Panels

Fabric Acoustic Panels make it easy to incorporate acoustics into your décor. Whether it’s for home or work, you’re sure to find a solution to match your needs with Audimute.

These panels were designed with large scale applications and high-traffic spaces in mind, ideal for schools and commercial spaces. Each panel is custom cut and wrapped in your fabric choice for a tight border without using a metal frame. This straight edge fabric finish makes it easy to butt panels next to each other to build your acoustic design to any size.

- High quality, durable fabric
- Hand assembled in the USA
- Eco-friendly construction
- Excellent acoustic absorption properties - NRC .95
- Fire safe materials - class A fire rated (ASTM E-84)
- Thickness: 1.5"
- Size: 2' x 4'
- Includes Velcro backed Hang Tabs & Screws for mounting

Note: $75.00 each
